Welcome to T.I.G International.

T.I.G International. is a knowledge and research based organization, which was established in 2002 in Sialkot (Pakistan), a city which is globally famous for high quality surgical instruments manufacturing.

Our main focus is on the design and development of instruments for Minimally Invasive Surgery and our current product range involves Reusable and Single use Laryngoscope, Diagnostic instruments , Surgical instruments and training and education solutions for surgical Skill Labs. New products are regularly added to our ever-increasing products portfolio, a proof our firm commitment on research and development.

Our dedicated technical staff works closely with doctors to understand their needs and then convert their ideas into practical products with high index of safety and performance. Our company puts alot of emphasis on customer satisfaction. We achieve this through an excellent products quality, quick delivery and most importantly, an efficient after-sales service.

Our Vision:

To be recognized as Pakistan's No.1 Surgical Solution provider.

Our Mission:

To improve patient safety be promoting surgical education through providing cheaper and beeta surgical solutions.

We look forward to being of service!

To promote surgical education.

T.I.G International Teams.

MILLER + MACINTOSH reusable laryngoscope, Conventional LED kit containing:

- Macintosh reusable, conventional LED Blade Nos. 1, 2, 3 and 4
- Miller reusable, conventional LED, straight Blades Nos. 00, 0, 1, 2, 3, 4
- 1 each standard + pediatric/baby conventional Battery handle
- 2 spare lamps
- In strong plastic casing

TIG-120-52

MILLER + MACINTOSH reusable laryngoscope, Fiberoptic kit containing:

- Macintosh reusable, fiber optic blade Nos 1, 2, 3 and 4
- Miller reusable, fiber optic blade Nos, 00, 0, 1, 2, 3, 4
- 1 each standard + pediatric/baby fiber optic Battery handle
- 2 spare lamps
- In strong plastic casing

TIG-120-54

MILLER + MACINTOSH disposable laryngoscope, Conventional LED kit containing:

- Macintosh disposable, conventional Blade Nos. 1, 2, 3 and 4,
- Miller disposable, conventional Blades Nos. 00, 0, 1, 2, 3, 4
- 1 each standard + pediatric/baby conventional Battery handle
- 2 spare lamps
- In strong plastic casing

TIG-120-56

MILLER + MACINTOSH disposable laryngoscope, Fiber optic kit containing:

- Macintosh disposable, fiberoptic curved Blade Nos. 1, 2, 3 and 4
- Miller disposable, fiberoptic straight Blades Nos. 00, 0, 1, 2, 3, 4
- 1 each standard + pediatric/baby fiber optic Battery handle
- 2 spare lamps
- In strong plastic casing
