About Us:

Welcome to T.I.G International, your global partner in single use instruments!

We are a 20 years old company, manufacturing and supplying single use surgical instruments, which are sold under our name in more than 25 countries of the world.

Product

The instruments are offered:

- 1) Single sterile
- 2) Non-sterile (clean)
- 3) Part of sets together with other single use instruments.

This catalogue contains the standard instruments. If other instruments are desired, please sent us your request.

Our single use instruments are equipped with a blue green and red metallic, non-toxic, colour marking. This provides a good distinguish between reusable and single use instruments. Also our instruments carry the CE logo and the logo for single use.

The instruments are manufactured by an ISO 9001 & Medical Devices Regulation (MDR) 2017/745 certified company and meet the international standards:

BS 5194 Part 1-4
DIN 58298
ISO 7153-1
F899-12

Child and Forced Labour

T.I.G International guarantees that the manufacturer of the instruments is not involved in any form of child and/or forced labour. The manufacturer is in compliance with all applicable regulations and international standards for this purpose and is audited by the CBI, which is part of the Ministry of Foreign Affairs each year. Certificates can be issued.

Quality System

To meet the legal requirements, T.I.G International has a full quality assurance system, based on the Medical Devices Regulation (MDR) 2017/745 dated May 05, 2017. We comply with the law by using the latest standards (ISO and EN standards). Our quality system meets the latest requirements of the EN ISO 10993-9:2021.

Delivery Time

Please contact T.I.G International regarding actual delivery times of the products.

We hope you enjoy visiting our catalogue and we shall be honored to know your comments about our company, products and services.

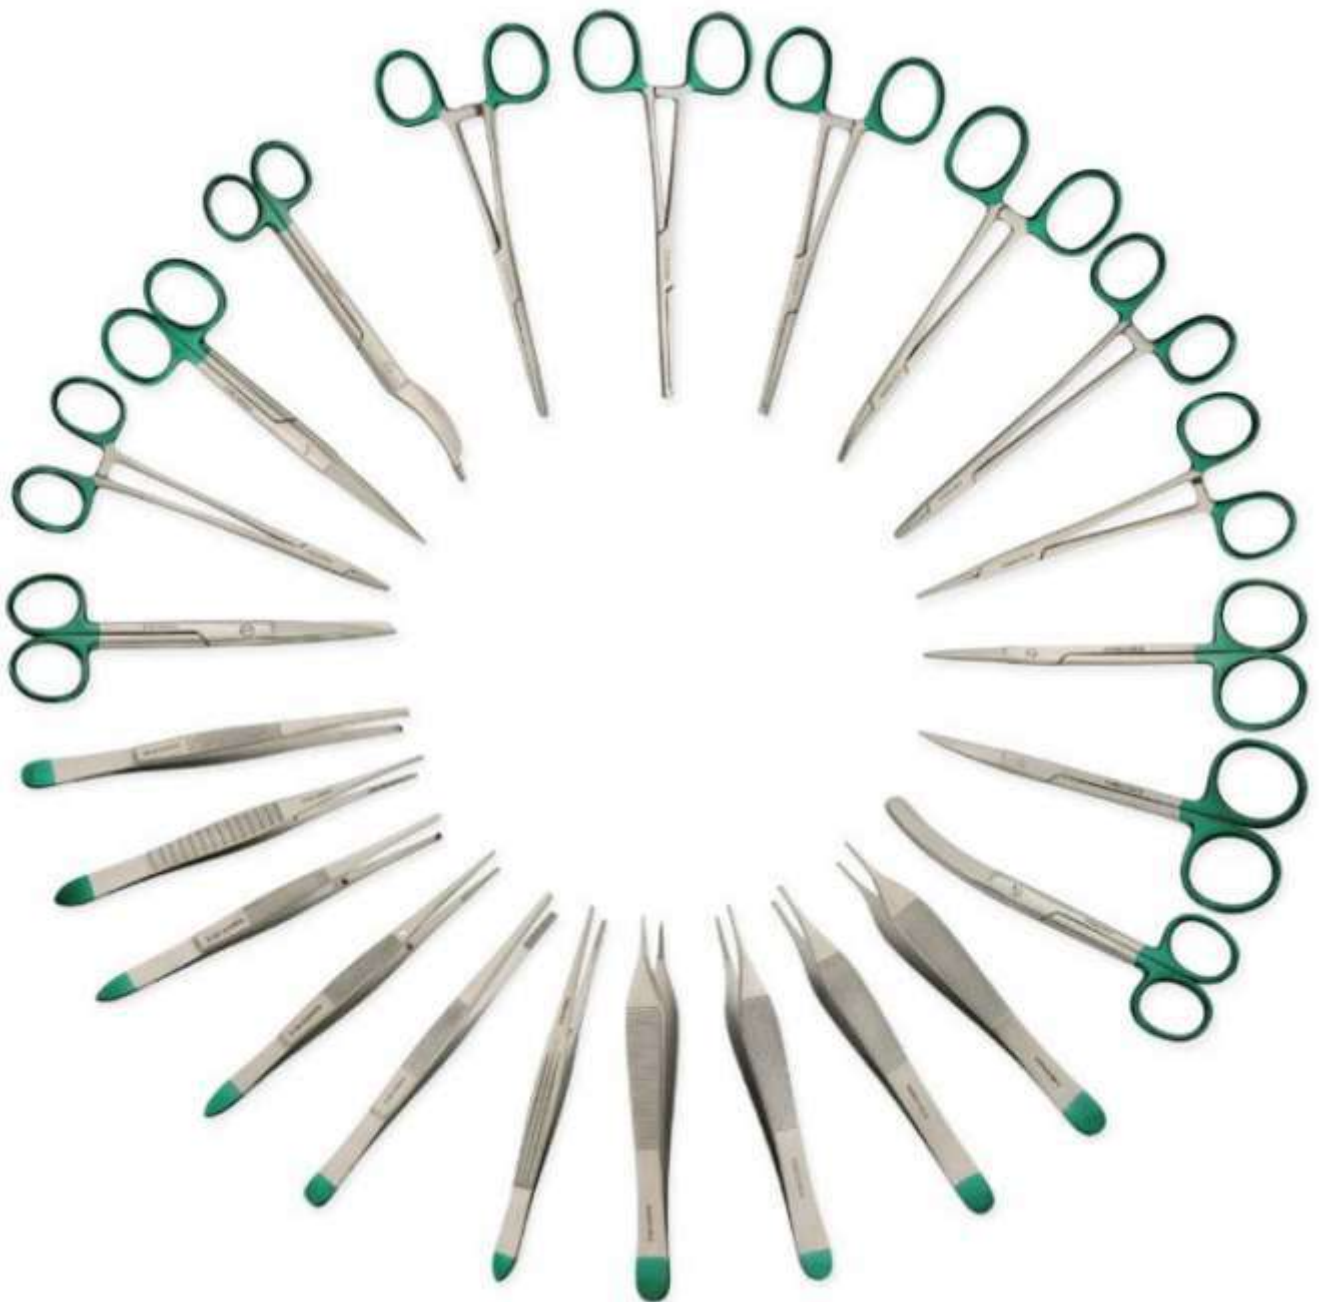

Thank you, we are,
Truly yours.
